POST-MATCH ANALYSIS

- > OBJECTIVE PERFORMANCE REVIEW
- > PLAYER EVALUATION
- > INDIVIDUALISED TRAINING PROGRAMMES
- > INFORMING PLAYER SELECTION
- > SETTING GOALS

Prozone can provide performance information after the match for both home and away games allowing you to analyse every aspect of team and player performance.

Information is presented using a range of video clips, in-depth data, full-pitch animation and multi-layered graphics giving coaching staff a unique insight into performance and an interactive platform to present those findings to players.

Effective post-match analysis provides the platform for objective insight into performance that enables coaches to supplement their own intuition with scientific information. Post-match analysis can be used to identify strengths and weaknesses in both player and team performance and allows you to create and adapt effective training programmes and manage specific areas in need of improvement.

WHY PROZONE POST-MATCH ANALYSIS?

> OBJECTIVE PERFORMANCE REVIEW

Helps to supplement your understanding of the game with precise and objective performance reviews after every game you play.

> PLAYER EVALUATION

Helps to inform the player recruitment process through accurate and validated physical, technical and tactical performance indicators.

> INDIVIDUALISED TRAINING PROGRAMMES

Allows you to create and adapt training programmes for individual players, units within the team and the team as a whole.

> INFORMING PLAYER SELECTION

Provides evidence for team selection, squad rotation and tactical changes.

> SETTING GOALS

Allows you to set realistic goals and objectives for specific matches, for the entire season, for individual players or for the team as a whole.
